Frederick Law Olmsted: Plans And Views Of Public Parks (The Papers Of Frederick Law Olmsted)

Synopsis

Lavishly illustrated with over 470 images—129 of them in color—this book reveals Frederick Law Olmsted's design concepts for more than seventy public park projects through a rich collection of sketches, studies, lithographs, paintings, historical photographs, and comprehensive descriptions. Bringing together Olmsted's most significant parks, parkways, park systems, and scenic reservations, this gorgeous volume takes readers on a uniquely conceived tour of such notable landscapes as Central Park, Prospect Park, the Buffalo Park and Parkway System, Washington Park and Jackson Park in Chicago, Boston's "Emerald Necklace," and Mount Royal in Montreal, Quebec. No such guide to Olmsted's parks has ever been published. Frederick Law Olmsted (1822–1903) planned many parks and park systems across the United States, leaving an enduring legacy of designed public space that is enjoyed and defended today. His public parks, the design of which he was most proud, have had a lasting effect on urban America. This gorgeous book will appeal to landscape professionals, park administrators, historians, architects, city planners, and students—and it is a perfect gift for Olmsted aficionados throughout North America.

Customer Reviews

American landscape architect, journalist, social critic, and public administrator. He is popularly considered to be the father of American landscape architecture. Olmsted was famous for co-designing many well-known urban parks with his senior partner Calvert Vaux, including Prospect Park and Central Park in New York City,[2] as well as Elm Park (Worcester, Massachusetts),

considered by many to be the first municipal park in America. Other projects that Olmsted was involved in include the country's first and oldest coordinated system of public parks and parkways in Buffalo, New York; the country's oldest state park, the Niagara Reservation in Niagara Falls, New York; one of the first planned communities in the United States, Riverside, Illinois; Mount Royal Park in Montreal, Quebec; the Emerald Necklace in Boston, Massachusetts; Highland Park in Rochester, New York; Belle Isle Park, in the Detroit River for Detroit, Michigan; the Grand Necklace of Parks in Milwaukee, Wisconsin; Cherokee Park and entire parks and parkway system in Louisville, Kentucky; the 735-acre (297 ha) Forest Park in Springfield, Massachusetts, featuring America's first public "wading pool";[3] the George Washington Vanderbilt II Biltmore Estate in Asheville, North Carolina; the master plans for the University of California, Berkeley and Stanford University near Palo Alto, California as well as for The Lawrenceville School; and Montebello Park in St. Catharines, Ontario. In Chicago his projects include: Jackson Park; Washington Park; the Midway Plaisance for the 1893 World's Columbian Exposition; the south portion of Chicago's "emerald necklace" boulevard ring; Cadwalader Park in Trenton, New Jersey; and the University of Chicago campus. In Washington, D.C., he worked on the landscape surrounding the United States Capitol building.

I am so impressed by the book that I have ordered four as gifts and one for myself. It's gorgeous and informative. Johns Hopkins University Press did us all a service by publishing it and thanks to for making it available.

Excellent!
