Customer Reviews

There is way too much black incorporated into the drawings. They should have allowed the colorer to color in the black. The designs are cool, but it's a coloring book and there should not be parts already colored in. Also, the paper is not as thick as they advertise and if you use markers it does show through the other side. I would not purchase again.

Love this adult coloring book!!! By far one of the best ive bought so far. The pages are nice and thick so nothing seeps through. I love all of the pictures definitely a great coloring book for all skill levels.

i was hesitant about this book because some tattoo books are cheesy, but this book has many solid neo traditional images. fun!

The designs are nice except for the sugar skulls I only like two of them the rest are plain and the design isn't that great

Really love the art work in the book and how you get to be the artist to choose what color they will be

I really like it and it really works for your disability and the stress

I expected more... It looks like a child's coloring book.... It's cool-ish, I wish I would've been able to preview before purchasing.

Awesome pictures for coloring with a few mediocre designs mixed in. Overall an excellent adult coloring book.
