# How To Draw Comic Book Super Villains Using 5 Easy Shapes

## Synopsis

The book teaches children how to draw the foes to their favorite super heroes using basic shapes that they already know how to draw or can be easily learned. By following the examples, children learn to see complex pictures as just a grouping of simple shapes. After just a few lessons they are ready to master their own characters and more!

## Customer Reviews

My 6 yr old is able to follow the instructions in this book. The shapes are simple, and repetitive for all the user villains with some variations. Overall, I think it's a easy way to start drawing for small kids

When I gave my son this super villain book, he was so happy. He had just finished his superhero drawing book by this author (Steve Hilker) and was excited to see that he could continue to have a great time drawing fun characters with the super villain book. He even started creating some of his own heroes and villains using the easy shapes. This book is just awesome. I highly recommend it. I'm hoping this author might continue making similar books, maybe a Minecraft one.

I purchased this for my 9 year old son for Christmas and he loves it. Very simple instructions.

Product arrived on time.

Easy to use. My six year had LOVED this book! I am a teacher, too, so I plan to buy another one for my classroom.
