This book brings you 31 flowing, illustrations of captivating, fanciful faces, set in the midst of repeating, flowing and swirling patterns that include seashells, stars, hearts, raindrops, geometric shapes, flowers, leaves, butterflies and many more. The art work and style is varied, so I am adding a few of the pictures which represent the different styles. Adults and school aged girls will love this book. My school aged Granddaughters love coloring in this book. They use Ultra fine markers, Crayons, Fiskars Gel Pens (available on) or Colored pencils. 1. 31 illustrations printed one per page (the back of each page is blank) on heavy weight, bright white paper, perforated paper for easy removal. 2. Always test Gel pens and markers and If they leach through the paper, then add a piece of scrap paper under the page you are coloring and leave it there until it is completely dry or remove

the picture from the book.3. Colored pencils, crayons, Gel Pens, and Markers are perfect for this book.

Love! This is my first completed page

From my 7 year old daughter: It was very challenging but I did it! I used color markers, didn't like color pencils. And it looks so very pretty... see!! highly recommend the book for adults and older children, once they lose interest in characters and cartoons but still love to color. Great for quality time coloring together, and it teaches children to slow down, take their time, do a good job, and take pride in their work. Hard work pays off... with stunning results. I highly recommend.

The picture on the cover is one of the best in the book. Many of the pictures are more 'abstract' and 'undefined' -- if that's your thing then you'll really like this coloring book. What I really like about the Creative Haven/Dover coloring books are: 1) the paper is always very good quality; and 2) the Creative Haven are only 'one sided' and have perforation on the pages. For the best Dover illustrations/coloring books check out Marty Noble's work.

I absolutely love this book! It is challenging and fun. Many I have colored have been given to people framed as gifts because they wanted them. And the pages are perforated to remove easily to frame.

I was so excited to get this but ended up being really disappointed. The front and back covers so beautiful pictures that I could not wait to color. When I got the book 80 percent of the pages look photocopied and the lines are thick and faded. It almost looks like someone drew over them with a sharpie then photocopied it. Pretty much a huge let down. There are some nice pics of good quality to color but not enough to make it worth it.

Level of difficulty: HighDesign: interesting and enjoyableI've enjoyed this book a great deal!

Very nice pictures to color. Yes you should add this to your color book inventory. And there is only 1 picture a page...nothing on the back so you don't have to worry about messing up another picture.
