My First Mandalas Coloring Book (Dover Coloring Books)

Synopsis

A Far Eastern design tradition symbolizing the universe and the movement of energy, mandalas feature symmetrically arranged patterns within their intriguing centers. This beautifully rendered book invites little artists to add their choice of colors to 30 large, simple re-creations of mystical mandala designs. Within each mandala's fascinating focal point are hearts, moons, suns, insects, unicorns, geometric designs, and much more. When complete, each beguiling illustration will surely dazzle the eye of every beholder!

Grade Level: Preschool - 2

Customer Reviews

great mandalas for young children(5-7). only drawback is that they are on the front and back of paper, so markers will run through to other mandala, have to use crayons or colored pencils

I had not heard of mandalas when some friends mentioned them. I tried this book first and have really enjoyed it. Even though I am well over the age range. I would say it's larger designs would also be good for anyone with visual problems.

I LOVE these mandala's. They are absolutly perfect for my small children, ages 6, 4, 2 they are all able to color without getting frustrated, as some coloring can do. I have also found that 10-30 min of

coloring quietly helps my son calm his brain down and be more peacefull. Very wondreful product, and simple enough that they can make it beautiful.

Good book but the shapes are not so intriguing for my kid (5yr old). I was hoping to see more butterfly and some cute butterflies (on Cover page) and other such but...Don't get me wrong this can interest a little older kids. I wish I was able to see all pages be in low resolution or tiny pic (to prevent printing) before the purchase.

This is a fantastic book of Mandalas for children who are not yet ready for more sophisticated mandalas. It was hard to find a book of "easy" Mandalas and this fits the bill just great. The one thing I did not anticipate is that the mandalas would be based on typical drawings such as hands, hearts, etc instead of being more free form templated designs. Still works, though!

I purchased this to put in my Samaritan's Purse Operation Christmas Child box. I don't know where my gift will be sent to, but I figured that the impoverished country it will go to will not have children who are familiar with Disney characters. These patterns are interesting for children of any background to color and decorate.

Love the size of the pictures to color. Some coloring books have tiny-tiny places to color; but, not this one. I took it to show my 95 year old mother and she liked it. I told her I would order one for her and she asked if she could just have that one, so I gave it to her and came back home and ordered me a new one. If you want to have some larger pieces to color, this is the book for you. I'm trying out different coloring themes/schemes....complementary, triadic, analogous....and this is the perfect book to try those schemes.

My grand daughter, 7, loves being able to color alongside me with colored pencils when she visits. These are big enough that you could use crayons also. I got crayola twistables which seem to be just right for the size of these mandalas.
