Customer Reviews

I think the song selection is great, so I was excited for it to arrive. I am a beginner on the mandolin, and I am working on reading standard notation so I was happy there was a book of tab for pop/rock songs at a good price. The book explanation leads you to believe that all the songs are in tab. There is maybe 1.5 songs in full tab and a smattering of tab here and there. The other songs use tabs for chords only, the rest of the song is in notation. Had I known this, I would not have bought it. It's useless to me at this stage in my learning.

I wish I had read the other reviews before purchasing. I am new to the mandolin, so I was looking for a tab book to get me started. This was advertised as such, but, the majority of the songs do not

have the tab notations and the ones that do, don't have it for the entire song.

As promised, a great little book filled with an easy assortment of beginner songs. Worthwhile purchase.

Can't give an accurate review it was a gift.

not happy with the size of text available..... you can't zoom in..... or size anything.
