This is the third book I have by George Toufexis. There is a great deal of challenging detail which makes it very interesting. The numbering is very small and in some cases so light that its very difficult to read. There also is just a color chart with no names assigned to them. This is probably the publishers doing and not the artist.

I have purchased several adult coloring books, Creative Haven Birds is by far the best. There is more shading, lifelike pictures than others I have bought. Will Mr Toufexis be putting out any more Birds Coloring books? I had rather color birds in their natural habitat. I have butterflys, landscapes,

flowers, etc. But keep going back to the birds. I have almost completed this book. I purchased it in January, so much fun.

Love the color by number books. My mother started on these adult coloring books with this book. She claimed it from me. LOL She finds it very relaxing especially now that she has been dealing with cancer. Helps pass the time when she is getting chemo treatments.

My daughter loves this book!

the concept is good - given the coloring book craze. But the numbers are literally unreadable. I had to get a magnifying glass to see them and my vision is darn good. Thought my Dad would like this since he's on the coloring book bandwagon but he laughed when I showed him the color numbers. Oh well...it was a good idea but the execution failed.

I like that it had small colored pictures of the birds as coloring guides. I loved the pictures of all the birds, This is what a color by numbers book should be. The only thing is it only lists the colors not the color names.

I love this book. The mix of flowers and birds allow me to use many different colors. I have always loved the color-by-number as a kid. It's nice to know I can still enjoy it as an adult.

I like the coloring book. There is more small fine coloring than I had hoped for but a nice book overall. I will have many hours of relaxing pleasure with this.
