Customer Reviews

What a fun twist on the coloring for adults trend. I ordered a few types of these books and they are pretty cute. The pictures that you color are not in so much detail that you can use whatever media you choose such as colored pencils, pens, markers, or even crayons. I have used both Sakura gel pens and my Prismacolor colored pencils and both work great. Since these are stickers, you don't have to worry about bleed through as there is only one side to a page. The sticker paper is pretty good quality. It only seems to pill up if I go over the same area numerous times with my gel pens. The beginning of the book has a couple of pages of tips on how to color the stickers in the

book. It may be helpful for someone who is just starting out coloring. There are plenty of stickers to color. There are also all sorts of sizes from small to large that take up almost an entire page. They all stick to the flower theme with a variety of stickers. There are a couple in the form of gift tags and borders as well. There is a total of 10 pages that are filled with stickers to color which may not seem like a lot but there are a lot of stickers to color. There is also a couple of pages at the end of the book that give you some ideas on how to use your newly colored stickers. There are some cute and creative ideas covered but not all ideas are used from this book alone. Some are from their other sticker books. Overall, I am really enjoying this sticker book. It's cute and it allows me to be a little creative with them. I feel like I can show off my works of color a little more than from just a coloring book. There is definitely a good amount of stickers to color and the price is very reasonable. I can get really creative with these with the varieties of media that I can use.
