This is my first coloring book in years and I am addicted. The designs are good and the paper is sturdy. It was fun choosing the colors. And of course, I got to put it up on the refrigerator door when I finished. Don't start one if you only have a short span of time to work.

My son loves coloring in his sisters adult coloring book, but they're all flowers and mandalas so when I found this I couldn't wait to give it to him! He loves it. He feels so cool now sitting around coloring in his own boys coloring book.

Love this book, quality of paper is decent and pretty standard for these type of indie-artists, single page designs. Dinosaurs are well drawn, and backgrounds are fun. This book is definitely fun, and cool if you love dinosaurs....

A nice mix of patterns and dinosaurs. Smilodon isn't really a dinosaur but I am just pointing it out. (Chuckles) Really, it is a fun book. Another thing I like is that each artwork is in a box, so you can use clipboard underneath it without having to work the area near bindings. added on 1/12/2016: tried using Copic markers - it tends to spread and feather and will bleed through paper. I recommend putting another piece of paper underneath. Also I recommend using non-alcohol based fineliners/gel pens/colored pencils for decorating fine curly lines and small areas.

Perfect! A great coloring book for adults!

This is a different, fun coloring book. The dinosaur images are great and the pages are of thicker paper and are one-sided.

My daughter is really into dinosaurs and girly designs so this is a match made in heaven coloring book.

Great colouring book! Wanted to try out a one with more simple designs to test out first but it still helps de-stress.
