I ordered the three books: Inspiration, Flowers and Abstract and I love all three. I wanted to try something different from the pattern coloring books I usually work with. I wanted to try larger images where I could work more with shading and blending colors. I read Zenspiration as Zen Inspiration and it's the Zen feel of all three books that I love. I never even thought of Zentangle. The flower

book is a great day to bask in the feeling of Spring, (especially on a rainy day) after the harsh Winter we had. There is a lot of area on each page to add to the design if you wish. I like the suggestions on the inside covers. The back inside cover has examples of some of the illustrations colored in. For some reason they inspire me more than the plain pages; Seeing her color choices help me think of my own. I am a colorist not a drawing person and I use my coloring books for mental relaxation. Coloring the flowers in this book does for my mind what a warm soak in the tub would for my body.

I loveeeeeeee this book to death!! It's a fairly thin book with only 20-30 coloring pages inside but they're all absolutely fantastic. I colored almost all of them within 3 days. Will definitely buy more Zenspirations books!!

This is one of my favorite coloring books. Some of the pages encourage embellishment and others are complete and ready to be colored. The book gives great ideas for patterns for your own individual drawings and creativity. I found that my favorite Brush Pens to use with these designs were Faber-Castell PITT Artist (India Ink) Pens. I love working with color and this book gave me many opportunities for being creative without having to produce the original drawing; however some of my favorites evolved with me adding my own ideas of 'borders' to the drawing presented, and more. I had great FUN with this book and its contents. Loved using this book. Attached is a sample from the book.

The title leads you to think that this is a very zentangle oriented book, but I don't think it is quite as Zentangle as you may expect. That being said, it is, as usual, filled with lovely illustrations by Joanne Fink who has a delightful style of her own. If you are into the garden ZIAs, you will find a lot of inspiration, but this is not a Zentangle instruction book. I use it more for inspiration than for colouring in. Not too expensive, so I think you will find something to make your purchase worthwhile. It is a nice little book.

Whimsical and inspiring designs fill the pages of this book. The layout is well done, single sided pages are perfect for bleed through. but I would recommend laying a piece of plastic wrap under the page in case it should bleed through heavily. Fun designs for easy coloring and as always, Joanne Finks lettering is superb. I highly recommend this book.

These coloring books are just beautiful. I highly recommend these if you are looking for something

for family entertainment, I got one for my granddaughter to take on our family beach vacation and she wanted all of us to color with her and the adults were amazed at how much they enjoyed the calming effect these had.

Fun book to color in for adults like me who still enjoy coloring. I use copic markers but they bled through so watch that you don't ruin the next page. Cute patterns of flowers to color.

Great illustrations for lots of fun coloring time. I mainly use colored pencils but you can also use markers or water colors. The paper is a good weight and the pictures are suitable for framing since they are one-sided.
