Customer Reviews

I have consulted Ripa's text many times to gain insight into the puzzling allegories one find often in old pictures. Get this book, and enjoy the explanations! The 18th century illustrations are more recent than the text, but are fun to contemplate and to decrypt. An important book.

This is an important historical work. This particular edition was much appreciated at the time, but a new quality edition of the work is long overdue. The book isn't really worth what people are asking for it, but its one of those situations where there isn't any other good choice.

The rights to this book can't be solely owned by Dover, and if they are, why doesn't Dover reprint this book. It's a Dover paperback, cheaply made, but oh so expensive.

Actually this was a Christmas gift, so I don't have any personal knowledge of this book. The recipient said it was a good book, so I guess that is all I can say.

awesome!
