Customer Reviews

This is such a funny coloring book! I bought this one for myself but I would highly recommend this if you have friends or family or coworkers even, I like to color or have wanted to get in to coloring. I love the current trend that's going on where the adult coloring books have come into popularity in the market. I'm a therapist and I personally feel that coloring can be a great way to reduce stress and decompress at the end of a tough day. At work, we recently instituted a Friday coloring afternoon. After the workday is over, we all bring snacks and color together and just visit with each

other while coloring. It has proven to be a really nice bonding experience while being very relaxing. Sometimes when we have particularly difficult cases, it can help to color as we problem solve. It tends to help us come up with more creative solutions. Anyway, back to the actual product. I think that the sayings are hilarious. As you can see in the pictures that other people posted, they are pretty good quality and there are a lot of different sayings. What I didn't like is that I felt like some of the pictures didn't really have very much to color on them. The background of this coloring book is black, so it's important to know that if you are looking for coloring pages with a lot of different places to color, this would not be one for you. I felt like on some of the drawings they could have easily put in more detail places to color, but they just chose not to. That was a little bit disappointing for me and why I took away one star. Other than that, and a couple of the sayings not really making sense and being pretty random, I really like this book. I think it's funny and I can't wait to show it to my coworkers.

I was pretty excited when I first got this in the mail. There are quite a few creative swears. Nothing worth saying and most were pretty lame. The sayings sounded like someone was trying too hard to make stuff up. This "swear" coloring book helped me laugh. I'd say the quality of the book is mediocre, but then I checked out the price. Hence the three stars. You aren't paying for something top notch. I hate the unoriginal nature of mandalas and wouldn't buy them on their own. In this there really isn't a lot of mandala to color, the detail is very lacking and the designs don't vary much from page to page. I do not know what to think of the black pages. With all the glitter and metallic pens out, the black looks good against the colors you choose to use. On the other hand, there's a LOT of black, and you aren't left with much coloring area. Anyone who colors adult coloring books can tell you it will take days or weeks to FINISH pages. So the small amount required here is both a blessing and a curse. I wanted the "chalkboard" to use my neon pens, but have NOT tried them exclusively yet. The variety of pens out there are well suited to this book. I was expecting more from this book, unfortunately it did fall a bit flat for me. I was glad to have a chance to purchase this product at a discounted rate so that I could evaluate, test and review the product to the best of my abilities and to submit my honest and unbiased opinion and experience. The coupon code for this product was provided to me solely for evaluation purposes. My thoughts reflect my OWN personal purchasing decision, processes and reactions. They are in no way influenced by the seller of this product.
