Customer Reviews

I received this book for free from the author in return for a review. The following is my honest opinion on this book: I really love this colouring book. Around the same width as A4 but slightly shorter this book is filled with 20 different patterned cats. The pages are all crisp white and a decent

thickness, perhaps not as much as some colouring books but are still good and felt pens would work as long as you don't over use them. Each page has a design on only one side of the paper so no problems in bleeding of pens and if in doubt just use a piece of card underneath the design you're working on if you use pens. Each page has the same basic cat design, Kitty's Cat. This cat appears on each page with a different pattern on it. The patterns range from flowers and leaves to stars, swirls and hearts. Every design is different all appearing on the basic same cat shape. At first I thought I wouldn't enjoy the book that much because of the repeated cat as soon as I got a good look of the book I've been hooked! The cat design alone is so cute and Kitty Blake's style of drawing is one I really like, reminding me of artists like Hannah Davies, whose colouring books always have me smiling. Although there are 20 different designs there are actually 30 pages of colouring (not counting the introduction page which has additional little kitties to colour). After a page for each design, there further pages where the designs are shown again two on each page. Although the designs are the same I enjoy having a second chance to colour in the same picture, I always like to make my identical images look as different to each other as possible.
