Customer Reviews

It may be one man's take on things at least this is my hope. The honesty is appreciated though brutal and harsh. Should not be in self help unless listed under views of a narcissistic man.

There is a hard look at marriage and its events and affects on ones life in this audio book. There was no sugar coating to the hard facts of life here.

Just as my husband and I are feeling overwhelmed I open up this book and now I know we are not alone. Very good pointers and critiques.

I always come out well informed after each book by Byron Williams. Thanks for the insight and keep them coming!

The book kept my attention and left me wanting to know what would happen in the lives of the characters.
