Customer Reviews

As with all these Essential Elements books, there is a catchThe first set of background music is free BUT you have to register and pay quite a high fee to get access to the rest of them.The blurb claims

real band used for backing music BUT again only a few of the tracks are with a real band, the rest is the electronic nonsense often used. OK for an absolute beginner perhaps but too simplistic otherwise.

this is a great book however i mistakenly ordered the wrong one for my son (tried to surprise him lol. In any case as soon as I notified them that I made a mistake they quickly sent me the correct edition.

Good price for the Essential Elements 2000: Comprehensive Band Method : Tenor Saxophone, Book as required by school band class
