Customer Reviews

Not only are these quite beautiful and inexpensive holiday ornaments, they turn out to be potentially life-saving decorations for your windows! I love birds and feed them to help them through the Autumn and Winter when their natural food sources are in short supply. But there are times when the light is "just right" (or wrong, depending upon your point of view) and windows become a perfect reflection of the outside world! It is a dreadful event when a bird hits a window. Since hanging an ornament in each of the windows in my living room months ago, I have neither heard that horrible *THUD!* nor observed any evidence of a bird hitting the windows. And these are Eastern U.S. birds in a West coast window, no less. These ornaments have the bird's image printed on both sides, BTW. Great results!!
