I LOVE this adult coloring book. This has got to be the most relaxing thing I have ever used to help me de-stress. At first, I always thought "adult coloring books" were kind of silly. I mean, really, who has time for that? Turns out, when I received this, I did not want to put it down. I honestly look forward to MAKING time to sit and color me a page. I find that having this, and forcing myself to make time to use it, has helped me so much. The amount of concentration it takes to get everything right, really puts my mind at ease, and helps me relax after a long and stressful day. The different designs in this book are all so beautiful. Some have thicker printed lines, while others have thinner lines, my favorites are the thicker bolder lines that create the gorgeous mandalas. The pages are all

one sided, so if you choose to color with markers like I did, then you don't get any on the back of the sheet. I do place another sheet between the two pages, to prevent the marker from transferring, and it works wonderfully. Overall, this is just the perfect item for any adult, and even young children to sit and relax with. The designs are flawless, the book is full of wonderful designs, and it's just the perfect item for anyone. This would make a great birthday or christmas present for anyone young and old. I highly recommend it. Sample was sent at no cost, for reviewing purposes.

I am enjoying this coloring book of 50 mandalas as mandalas are a wonderful design with which I can be creative with colors. While they are roughly round in shape, the outside edges vary considerably from smooth circles to many other shapes. While a few of the designs contain intricate details, I don't think that I will have any difficulty in coloring any of these designs with any form of my coloring mediums. I like the variety range which include some easy to color open and flowing designs. The book is well printed on one side of the white page. The paper is not perforated but there is plenty of room to be able to cut a page out if you desire. The binding is glued rather than sewn. All of my markers and gel pens leak through the paper of the book. My coloring pencils work great, though. I will most likely be using markers with this book, so I will put a waste sheet of heavyweight paper under the page I am working on to keep the ink from ruining the rest of the book. I received a free copy of this coloring book for test and review purposes.

Great, intricate designs and lots of pages to choose from. However, you will not be able to use markers with this book. Only ink pens or colored pencils. I tried several different types of markers and they all bled across the lines of the designs, preventing a clean finished look. I prefer to use markers for coloring Mandalas, as I think it gives it a more solid, clean look, but I was very disappointed to discover that I cannot use them with this book. You might be able to use markers for the thicker-lined designs, but definitely not for any of the others. I feel that this should be posted within the item description, to warn buyers ahead of time. I included a photo.

I was very impressed with the quality of this Mood Enhancing Mandalas Coloring Book. I ordered 2 one for myself and one for my mother to gift for Christmas. She loved hers as well. We've both

recently gotten back into coloring as I now have a 4 year old daughter and it's something we can both do together with her as she's learning to color in her own coloring books. She feels like we are spending quality time together and we are all relaxing doing something amazing. I was drawn to this book because of the Beautiful Mandala on the cover and I wasn't disappointed by the contents. I have a video to go along with this review and I will show you some of the pages but to protect the book maker I won't show them all (there needs to be some surprise, lol). I've used colored pencils as well as gel pens in this book and both work well so far. The pages are printed on nice high quality bright white paper. If I counted correctly there are 50 different pieces of art in this book for coloring. And a wide variety of patterns. It was well worth the money I spent on it and I feel it was much better quality than the books I've seen locally in stores for sale for \$3-5 more than this one was selling for. I also love that My Masterpiece Coloring invites us to post our finished pages to their website. I highly recommend and love this product.*I paid full price for 2 of these books and am using one for personal use and gifted the other. My review is based on my use of the product.

Mandalas are probably my personal favorite thing to color in these new adult coloring books and this lived up to expectations! Like many adults, I enjoy coloring for relaxation. It's something that I originally caught my mother in law doing 20 years ago back before there were such things as coloring books for adults...I thought she was nuts. Fast forward a few years and not only do I relax by coloring but teach others to do so via a Mindfulness course I teach. While I own many of the most popular coloring books, I tend to stay with an "author" once I find one that I like...and these are great. I have a copy of both vol 1 and 2...each has a nice variety of easy to complex pages to color. The books are both well built with one piece of art per side and decent quality of page thickness to prevent bleed. Overall I'm exceptionally pleased! Complimentary product provided for evaluation purposes.
