Attached to this review will be a silent flip-through video so you can see all of the designs in the book. I apologize for the length (at over 8 minutes) but, as it turns out, it takes a long time to flip through 130 designs. I have been enjoying the first book in this series and wondered how they could improve on it. Well, they did it by adding an additional 20 designs for about the same value. This is an outstanding coloring book filled with 130 designs by a variety of independent coloring book artists. Some of the artists are familiar to me and some are new. It makes for a great compilation of designs for any colorist. It is once again fantastic to have the opportunity to try so many different artists in one book. As I finish my coloring projects, I will add them to the photo samples I will include. This is what I experienced while coloring in this book and testing the paper with my coloring medium. In the comments section below, I will list the coloring medium I used to test this book and which I usually use for coloring my projects. 130 Designs by 70 different artists Designs are printed on one side of page Paper is thin, white, slightly rough and non-perforated Glue Binding Designs do not merge into the binding and there is plenty of room to cut pages out if you choose to do so. Alcohol-based markers bleed through this paper freely Water-based markers and India ink pens spot through this paper Gel pens leave shadows of color on back of page Coloring pencils work well with the paper but also leave shadows on the back of the page. I was able to get great results from both oil and wax based pencils.
