I've never been more determined to color within the lines than I have been with this book. It has resulted in more father son time with my toddler than I could have imagined, he's a future artist to be sure!

Definitely a different type of coloring book! However, I enjoy coloring this "adult" coloring book! Would NOT give this to children or anyone under 18, but it can be a cool, fun, "gag-gift" for an adult with a sense of humor who enjoys coloring (or to purchase for yourself if you're that adult!) You get to color several different females in different outfits (although nearly all of them are topless). Their

chests are of various sizes and their outfits represent different careers, personalities and so forth. It's different, kind of funny and rather fun... Although I'm a straight female, I enjoyed coloring this "unique" coloring book!

I had a derby gift exchange... So, naturally this was my first choice in a gift. It's what you want and more. Super fun and funny. Anyone that appreciates the mammary glands (and has a sense of humor) will appreciate this coloring book.

I was hoping for more larger breasted subjects because I need to practice my shading in colored pencil, and doing just circles and spheres is really boring. But this is a fun coloring book nevertheless. And if you want to color sexy women as a diversion from your everyday life, this is definitely one of the adult coloring books you should get. Now all I have to do is figure out how to print these pages out from the Kindle version!

I got this for a joke Christmas gift for the hubby...he thought it was so funny...he got the biggest kick out of showing what his wife got him for Christmas...he hasn't colored in it yet but he got a chuckle out of the book titles in the library...;)

What can I say. Color my boobswas an excellent gift for my niece's husband. Made us laugh. Tactfully done. You need to have a sense of humor. If you don't, don't order this.

This is the best boob coloring book EVER. That's it. I wish they made this into an actual coloring series. They have activity and sticker books, but I would LOVE to have more of the actual coloring books. I have purchased this numerous times and it never gets old. My husband and I color each other pics from this book all the time!!! The only issue (which is easily fixable if they had a better printer) is that markers go through the pages.

Very fun ,definitely not the same coloring book that I grew up with ,lol
