Synopsis

Margaret Evans shows how to blend and work with pastels, using their soft velvety tones and subtle changes of colour to reflect the beauty of flowers in the landscape, in gardens and in still life studies. THIS IS THE MOST RIDICULOUS INSTRUCTION BOOK EVER!!looking at the blurb,you would think the book is full of demos on coloring flowers,but it is untrue!it has only a mere 3 demos and is a pathetically short book.don't waste your money on it!!!!

This is a lovely book, but sadly too many photos without 'step by step' instructions that can replicate them. The few instructions that were given were very helpful. I would just like to get an instruction book that allows you to replicate a number of photos however.

This is a small and short book without a whole lot of information. It's O.K. but I'd check it out of the library first to see if I wanted to purchase it.
